

Claverdon Communication and Community Engagement Portfolio – November 2024

My role within the Parish Council has recently changed, moving away from the Recreation Area portfolio, I now have the responsibility for our communication and community engagement within the parish.

Since taking on this role I have focused much of my time on the Parish Council website, to ensure it not only up to date but also provides our residents with the information they need. Amongst many other things, within the website you can find full details (to include agendas and minutes) for our public meetings, financial reports, councillor reports, useful links, Yarningale Common updates and also a new Claverdon directory.

The directory is an area I am keen to develop on the website, and in the New Year I shall be contacting all current listing inviting them to submit any updates or additional information they would like included to enhance their entry. The parish council will not be promoting or recommending any listing, but we feel a useful tool for residents.

Please do refer to our website should you need further information on anything relating to the parish. We are the first point of contact for anyone concerned with a community issue and we welcome parishioners getting in touch.

One other important area for us is having a presence on Facebook, important as this is a much used medium by our residents. Moving forward it is our intention to share various local news and indeed the wider Stratford District and Warwickshire County information that we feel would be useful. Please support this where you can and give our page a like or follow. @claverdonparishcouncil

Finally, you might have seen our initial communications relating to a potential Community Solar project. We are currently undertaking a study to assess the feasibility of this and once finalised a copy of this will be available on the website. It will be vital that we are transparent with our community and engage with you on this potential project, and it is our intention to continue to do so with regular official updates. Further details can all be found on the website and should you have any questions or concerns please do get in touch and email community.solar@claverdon-pc.gov.uk
